LUMINARA™

Since 2006 the realistic effect of our LED candles has managed to convince the most demanding clients and has enchanted their interiors.

To celebrate our 10th anniversary, we introduced an extraordinary innovation: the first LED fragrance diffusing candle. 3 years of research and close collaboration with the best perfumers have led to this fantastic product that will subtly perfume any room with the most refined fragrances.

OUR TECHNOLOGY

LUMINARA™ is the only brand authorised to produce and distribute LED candles with oscillating flame using a DISNEY patented technology. This technology was first invented for the haunted mansion attraction.

This technology is covered by many patents and vastly differs from copy products thanks to:

- Increased running time (from 350h)
- Better LED light (not too yellow, not too white) and brighter
- Better oscillating flame movement

ALL Luminara candles feature infrared remote control & 5hr on / 19hr off security timer.

Code: REMOTE

LUMINARA FRAGRANCE THE 1ST FRAGRANCE DIFFUSING LED CANDLE

This is the most innovative product developed since we introduced the first Luminara candle in 2006. Choose one of our handcrafted scents, insert the capsule and enjoy the subtle aroma for 200 hours.

Code: LU10211
(incl. Remote Control)

LUMINARA™

Thanks to our capsule system, you can change scent at any point in time very easily. Each capsule offers you 200 hours of scent.

A classic look with cutting edge technology: real wax, wave finish, **500 hours** of running time with 2 x D batteries.

11 FRAGRANCES DESIGNED BY GREAT PERFUMERS
